7:30 a.m. to 9:00 a.m.

The Junior League of Houston

ODYSSEY HOUSE TEXAS, INC.

Odyssey House Texas, Inc. has been providing youth the opportunity to rebuild their lives from drugs, alcohol, abuse, and violence since 1989. Local families who had lost their children to drugs and alcohol identified the need for a more effective, comprehensive and affordable treatment. The generosity of foundations, corporations, churches and individuals made Odyssey House a reality.

Odyssey House provides residential treatment and education for adolescents, male and female, ages 13 to 17 years whose life deficits required an alternative environment and a professional treatment intervention. The short-term goal for youth served by Odyssey House is for them to return to the community as healthy, productive, and accountable members of our community. The long-term goal is to break the cycles of substance abuse and violence in their families and for generations to come.
